

Improve Building & Occupant Health. Save Energy.

Indoor Air Quality (IAQ) and HVAC Restoration Services for Higher Education!

We spend over 90% of our time indoors with our work, education and leisure.

Don't you think it's time to take a closer look at how indoor air quality (IAQ) impacts your operational and people costs?

When it comes to addressing your indoor air quality, HVAC/Duct cleaning and restoration projects, speed, quality and compliance shouldn't be mutually exclusive. Especially in the case of an emergency! Now higher education in Illinois can easily procure a comprehensive suite of IAQ and HVAC/Duct system solutions from Pure Air Control Services, Inc., through IPHEC.

With IPHEC's Contract, #IPHEC1907, Pure Air Control Services, Inc. provides IAQ testing and remediation services designed to meet the needs of your entire team, from facility and maintenance engineers, to risk management and procurement officials. Our specialized approach to problem-solving means educational institutions (and other agencies) can rely on Pure Air Control Services for world class building diagnostics, and innovative IAQ services to optimize the health and performance of facilities and HVAC/Duct systems.

To learn more about procuring Pure Air Control Services' IAQ Solutions through IPHEC please contact your IPHEC representative at 217-333-1352 or visit www.iphec.org.
