Pure Air Controls Ranked #1 Multi-Discipline Environmental Firm in 2020 INC. 5000

COVID-19 and Indoor Air Quality Industry Leader Once Again Makes This Coveted List

PROVIDED BY: Troy Raszka, VP of Marketing & Communication, Pure Air Control Services

Inc. magazine has revealed that **Pure Air Control Services, Inc.** is on its annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. The list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses. Intuit, Zappos, Under Armour, Microsoft, Patagonia, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

"We are honored to yet again be included in the INC 5000 with so many other great companies," says Pure Air Controls CEO Alan Wozniak. "It would not be possible without our skilled and dedicated staff's commitment to excellence and customer service."

Of the 54 environmental services firms listed on the INC 5000, Pure Air Control Services is ranked the number 1 multi-discipline indoor environmental services company in the US.

Not only have the companies on the 2020 Inc. 5000 been very competitive within their markets, but the list as a whole shows staggering growth compared with prior lists as well. The 2020 Inc. 5000 achieved an incredible three-year average growth of over 500 percent, and a median rate of 165 percent. The Inc. 5000's aggregate revenue was \$209 billion in 2019, accounting for over 1 million jobs over the past three years.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at www.inc.com/inc5000. The top 500 companies are also being featured in the September issue of Inc., available on newsstands August 18.

"The companies on this year's Inc. 5000 come from nearly every realm of business," says Inc. editor-in-chief Scott Omelianuk. "From health and software to media and hospitality, the 2020 list proves that no matter the

sector, incredible growth is based on the foundations of tenacity and opportunism."

Pure Air Control Services from its beginnings has been an innovator in the field of indoor air and environmental quality. They fundamentally understand the deep connection that building health has to influence occupant well-being, systems performance and energy efficiency. With this knowledge they are able to scientifically find issues impacting a building and provide engineered solutions to establish a safe baseline and maintain it. Especially in the current landscape of the COVID-19 pandemic. After all, healthy buildings equal healthy people.
