

# PURE-DUCT

Professional Hygienic Duct Cleaning

Improve both occupant & building health with hygienic duct cleaning & HVAC services.

## Why Pure Air Control Services?

Have your ducts cleaned by the best in the business. We are a mechanical contractor, license CAC057992 and an active member of National Air Duct Cleaning Association (NADCA).

Your HVAC system is in safe hands. With over 30 years of expert experience in Commercial & Residential Duct Cleaning, plus an extensive network within the HVAC industry, Pure Air Control Services is the company you can trust.

Clean your system without a mess! With our detailed specifications our technicians are held to the highest standard in the business.

## A Complete and Comprehensive Cleaning Service

Our expert team consists of inspectors, technicians and consultants, with support from the headquarters in Clearwater, FL. We offer a complete and comprehensive cleaning service for all commercial and government properties keeping indoor air quality (IAQ) at the forefront.

Our passion and drive to be the leaders in IAQ means that our service processes are constantly reviewed and improved to consistently achieve excellence. With over 600 million square feet across more than 10,000 facilities, our reputation speaks for itself.

We make this offer to clearly demonstrate that our measure of quality is our Customers' Satisfaction.

# The TOTAL Hygienic System Solution

## PURE-DUCT

We use specialized equipment inside of the ductwork to create high pressure air turbulence that dislodges built-up dust and debris to be collected by an industrial strength vacuum system with HEPA filter.

## PURE-*Steam*

The HVAC unit can also be environmentally cleaned with our proprietary **PURE-Steam** process. High temperature and low pressure steam disinfects the inside of the unit and clears clogged coils to restore optimal airflow and energy efficiency!

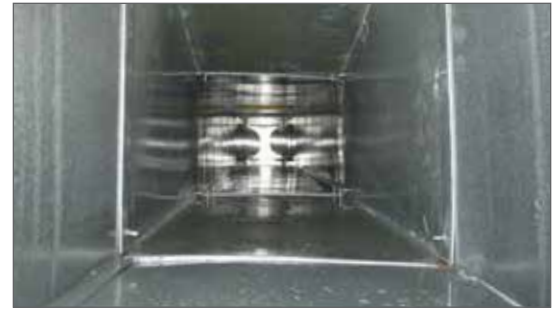

## PURE-DECON

Next we can perform our **PURE-Decon** room disinfection service to kill any bacteria, mold or yeast that may still be lingering in the indoor environment, waiting to be reintroduced into the ventilation system. It fogs the area with a fine, dry mist of hydrogen peroxide and silver that is effective at the cellular level.

## PURE-cell

If your ductwork has fiberglass insulation that's deteriorating we can replace it with our **PURE-Cell insulation** or encapsulate it with a stabilizing, antimicrobial paint.

In combination, these services provide a total hygienic cleaning to ensure the health, comfort and energy efficiency of your facility!
